

KIOSK XS FOR WALL

This key dispenser features a user-friendly screen and a QR code reader, so that guests simply scan the QR code from their reservation to receive their room key card. This efficient solution enhances the guest experience by providing quick access while ensuring security. This kiosk is designed for outdoor placement, allowing convenient check-ins at any time. Ideal for hotels and rental properties, the key dispenser streamlines key management and reduces wait times, ensuring guests can easily access their accommodations with minimal hassle.
